-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

1. The drawings are objected to because box-type drawing elements 12, 14, 16, 18, and 22 in Figure 1 lack descriptive labelling per 37 CFR §1.83(o). Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

The descriptive labelling that is lacking on box-type drawing elements 12, 14, 16, 18, and 22 of Figure 1 is any text or internationally-accepted schematic symbol that identifies the item illustrated by the box-type drawing element. For example, if a box-type drawing element were to illustrate an amplifier, then it must be labelled, "AMPLIFIER." Correction is hereby **required**.

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

Art Unit: 3662

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 1-20 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

On lines 8-9 of independent claim 1, it is unclear in context what is meant by the method step of “combining the first and second representations to form a three-dimensional model of the weather event” as opposed to the method step on line 10 of claim 1 of “constructing a ... shape ...”.

On lines 16-17 of independent claim 7, it is unclear in context what is meant by the method step of “combining the first shape descriptor and the second shape descriptor to form a three-dimensional model ...” as opposed to the method step on lines 18-20 of claim 7 of “constructing a ... shape ...”.

On lines 13-14 of independent claim 19, it is unclear in context what is meant by the “processor” acting to generate “a three-dimensional model ...” as opposed to the “display” rendering a “three-dimensional shape” as set forth on lines 15-16 of independent claim 19.

Dependent claims 2-6, 8-18, and 20 are unclear in that they depend from unclear independent claims 1, 7, and 19.

4. Claims 1, 7, and 19 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

Art Unit: 3662

5. Claims 2-6, 8-18, and 20 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.
6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

The examiner-cited prior art is of interest for showing prior art systems and methods of displaying radar returns in three dimensions where a plurality of sweeps have been used to obtain the returns.

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Bernarr E. Gregory whose telephone number is (571) 272-6972. The examiner can normally be reached on weekdays from 7:30 AM to 4:00 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Thomas H. Tarcza, can be reached on (571) 272-6979. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
